FEED BACK'S PROJECT DETAIL

FEED BACK is a leading and proven food security solution in the world. It is a market-focused and behavior change based solution that enables families and communities to secure food, health, and new income in just 16-weeks.

Feed Back is a barangay-wide vegetable exchange ("Exchange") that inspires families to farm their food needs in their backyards, and to produce excess which they bring to the Feed Back Exchange and/or sell to neighbors and nearby villages and towns.

The Feed Back Exchange takes place in every neighborhood of a partner community once a week for 12 weeks (after the 6-week garden creation and growing period). To join this collective and non-cash exchange, a participant commits at the start of the program to bring at least 3 kinds of vegetables from their backyards. In exchange, they get their fair share of 20+ kinds of vegetables contributed by their neighbors.

This access to diverse vegetables is the initial draw. What keeps families coming back week after week for 12 weeks are: a) the fair valuation of the contribution – every family gets a raffle ticket for every P50 worth of vegetables they share; b) fun and games that village leaders arrange; and c) the love and community spirit that gets rebuilt with being together and sharing with each other.

For this Project, Each Feed Back Barangay will benefit from four support structures ("Support Structure"):

1. **ARK Community Engagement Officer**

Secures partnership and resources, lead Learning Fiestas, and guides Barangay leaders and their local program team to set goals, create implementation plans, hire program team, secure budget, execute the Program, track and analyze performance and impact, problem solve, gain critical insights and feed back, and share weekly updates and liaise with Municipality.

2. **A free license/access to the ARK Feed Back PlayBook**

A fun, easy-to-read and use guide for leaders, managers and families to implement and participate in Feed Back. With over 20 chapters of content, the PlayBook is composed of how-tos, tried-and-true tips, and inspiring stories from ARK and its graduated communities.

3. **ARK Guide**

Feed Back partners that have run and graduated from the Program. They provide guidance, championship, confidence, insights and winning strategies to this Project's Barangay leaders through check-in calls every other week and periodic community visits.

4. **ARK Feed Back Fiestas**

In-person preparation and group learning sessions that enable this Project's Barangay leaders to feel supported, be prepared, and learn from each other.

Unique to Wave 11 and this Project, ARK, the Municipality and Feed Back Barangays will provide **additional benefits ("Plus Ventures")** to participating Wave 11 Feed Back families:

1. **Market connection and income ("Market").** Wave 11 families will be able to sell compost to the Municipality with the logistic support and championship of Barangay leaders

2. **Community Reforestation ("TreeFold").** Wave 11 families will be able to plant indigenous trees (hard wood and fruiting) in their backyards and within their community where there is need for shade, water and soil retention, and flood prevention. The initial target is 21 trees/family. The Municipal and Feed Back Barangay's commitment and role for TreeFold will be covered in a separate agreement.

The distribution of tree seedlings and the purchase of seeds, compost and other inputs will take place during Feed Back and 3 reunion Feed Back gatherings in 2026. (detailed timeline to follow)

OBJECTIVE AND GOALS

1. bring Feed Back to interested **Prieto Diaz Barangays** and enable families to be food secure, healthy with access to new income
2. Equip Feed Back Barangay leaders with leadership skills and knowledge to run the program and track their impact
3. Reach **1,015 families**, invite them to the Feed Back Exchange and share seeds to inspire them to develop backyards and source their food needs from their vegetable gardens

5. Eliminate hunger and malnutrition in the Feed Back Barangays
6. Create a path for the Feed Back Barangays to be united, proud, self sustaining and investing in themselves and their future
